WILL INCLUDE MAPS THAT:

...show the location of future *housing, jobs, and services*.

...identify *natural areas* that should be protected, restored or improved.

...plan for the location of *future roads, water, sewer, stormwater and other infrastructure*.

THE UPDATE WILL INCLUDE:

Revised Goals, Objectives and Policies (GOPs) that guide future

decisions about development and public investment. These will include long-term goals and objectives with policies to describe what needs to be done to reach the goals.

HOW WILL YOUR INPUT BE USED?

Comments from you will help us make quality decisions to create a more livable and vibrant community for all Putnam County residents and businesses. Your input will be considered with the data and analysis to help us develop the Comprehensive Plan update. The draft will be available for public review in the spring of 2020.
